

BANDITS FIGHT HARD  
AND ONE IS SHOTINDIANA SHERIFF'S POSSE  
MEETS ROBBERS.

The Officers Shoot One of a Gang that Raided the Bloomfield, Ind., Bank—The Capture of the Other Seems Certain to Be Accomplished Soon.

INDIANAPOLIS, Ind., Oct. 5.—A bloody fight took place last evening in Greene county between a posse of 100 armed men and a trio of bank robbers who robbed the safe of the Bloomfield bank Wednesday night, blowing the vault to smithereens with a heavy charge of dynamite and wrecking the bank office. The men secured \$4,500 in cash and fled to the hill country west of Bloomfield, where they were overtaken by Sheriff Johnson's posse, guided by bloodhounds. A desperate fight was kept up, with the robbers retreating. One of the trio was so badly wounded he fell behind and attempted to hide in the brush. The bloodhounds nosed him out and his capture was easily effected. He was taken back to Switz City, four miles from Bloomfield and three miles from where the fighting took place in the woods. The wounded robber gave his name as Charles Rivers of Indianapolis and still had \$1,100, his share of the Bloomfield bank plunder. He is badly wounded. The sheriff, with the greater part of the posse, assisted by the bloodhounds, continued the pursuit toward the western edge of the county, and it is believed the other two will be overtaken and shot to pieces before long. O. W. Shreyer is cashier of the bank and says \$6,000 will hardly cover their loss.

## MAY MAKE THINGS LIVELY.

## Sensational Report of a Deal Between Russia and China.

LONDON, Oct. 5.—The Evening News publishes a sensational statement that the cabinet council was called to consider a dispatch received from Minister O'Connor at Peking in which it was said that Russia was intriguing to assist China against Japan in return for the cession of Russia of certain ports of Korea. If this is true, the Evening News adds, it will be a question of sending first-class British men-of-war to China to thwart Russia's intentions. There is no confirmation of these statements from other sources.

## ENGLAND'S WAR SCARE PAST.

## Europe Recovers from Her Fright—British Troops Will Go to China.

LONDON, Oct. 5.—The English newspapers have apparently recovered from the bad scare caused some of them by the hasty calling of a cabinet council. Yesterday the afternoon newspapers were seriously apprehensive of war with France. Now they are unanimous in expressing the opinion that there is not the slightest cause of anxiety as to a serious dispute with France and it seems to be admitted that the council which meets to-day will not be called upon to decide anything more serious than the protection of British industries in China.

It seems generally agreed, however, that the cabinet council will decide the question as to whether British troops will be sent immediately to the treaty ports of China.

The cabinet council met to-day. Most of the ministers were present. Sir William Harcourt, chancellor of the exchequer, was absent. At the hour of sending this dispatch the council was still in session.

The cabinet meeting lasted from noon until 1:30 o'clock p. m. It is understood that a perfect agreement was reached respecting the plans submitted for the protection of British residents in China.

It is announced upon authority that the cabinet council, after discussing the state of affairs in China, decided to send troops to that country in order to protect British interests.

It is also probable that additional ships will be sent to strengthen the fleet in Chinese waters under the command of Admiral Freemantle.

It is also said that in consequence of to-day's meeting of the cabinet the British legation at Peking will shortly be guarded by British blue-jackets and native Indian soldiers.

The Paris correspondent of the Standard says that he has made inquiries in the proper quarters and that he is in a position to state that whatever urgent communications have been received by the British foreign office they did not come from France. No urgent communication could have been sent from the French foreign office without being first submitted to the French cabinet. The last cabinet meeting was held a week ago.

A dispatch from Paris to the Daily News says there is no pending question between France and England grave enough to justify a scare.

## To Guard Treaty Ports.

BERLIN, Oct. 5.—The Frankfort Zeitung says that the Chinese minister in London has proposed to the British government that Russia, Great Britain and France dispatch troops to the treaty ports in China in order to protect the interests of foreigners residing there. ## WHISKY WILL BE CHEAPER.

Trust Proposes to Control the Market by Underselling Its Competitors.

PEORIA, Ill., Oct. 5.—The abolition of the rebate system will probably be the only action of importance to be taken by the whisky trust directors at their present meeting. When the board adjourned yesterday the officers said that only routine business was being considered yesterday and that nothing startling was to be expected. The directors profess to be pleased with the reception accorded the abandonment of the rebate system by the trade and hope that their relations will be more amiable hereafter. The fight of the trust from now on will not be to control the market by preventing the purchase of goods from outside houses, but to make the price so low that the trust will secure the trade and drive the outsiders from the market. The fight is to be begun at once and a lowering of prices may be anticipated at any time.

## FLYING JIB'S RECORD.

Hitched to Running Mate He Paces a Mile in 1:58 1-4.

CHILLICOTHE, Ohio, Oct. 5.—Records have fallen at about all of the western southern circuit meetings, and the 5,000 people at the kite track yesterday saw a record broken that has stood for the last ten years. Flying Jib was hitched with a running mate for the first time last Sunday and paced a trial mile in 1:59 1/4. The association at once made arrangements with Monroe Salisbury to start the California pacer hitched with a running mate against the world's record of 2:01 1/4 held by Westmont. Thus rigged Flying Jib paced a great mile and covered the distance in 1:58 1/4, which eclipses the Almont horse's record by three and a half seconds. As no flagman was at the quarter pole the time of the first half can only be given, which was in just 59 seconds. As the pacer went away at a terrific gait, and in view of the fact that he faced a strong wind in the second quarter, the first quarter must have been about 28 seconds. The third quarter was in 29 1/2 seconds and the last quarter in just 30 seconds.

## TALKING ON SUGAR.

Clash in the Provisions of the McKinley and New Tariff Bills.

WASHINGTON, Oct. 5.—Judge McComas, in the United States District court for the District of Columbia, heard arguments yesterday in the application of the Miles Sugar Manufacturing company for a rule of mandamus to compel the secretary of the treasury to appoint the officials provided for in the McKinley act for the payment of sugar bounty. Gen. J. L. Brent of Maryland appeared for the sugar planters and E. B. Whitney, assistant attorney-general, for the secretary of the treasury. It is expected Judge McComas will render an opinion in a few days. The sugar company claims the sugar bounty provisions of the McKinley act constituted a contract for the period named in that act and congress had not the power, under the constitution, to impair that contract by a repeal of the sugar bounty law.

## LITTLE ROCK REPAIRS DAMAGES

Armies of Men at Work Clearing the Streets of the Cyclone Debris.

LITTLE ROCK, Ark., Oct. 5.—There were no additions yesterday to the cyclone fatalities. In the damaged districts armies of men continued to-day the work of clearing away the debris, preparatory to the rebuilding. Over 500 men were engaged. The loss to the state by the asylum damage is definitely estimated at \$75,000. Revised estimates of the aggregate damage sustained in the city indicate losses of \$500,000. ## To Make a Fight on Sovereign.

CINCINNATI, Ohio, Oct. 5.—It is rumored labor organizations in Ohio are organizing for a fight on Grand Master Workman Sovereign at the coming annual convention of Knights of Labor in New Orleans. They are said not to be satisfied with his taking such an interest in the strike of the American Railway Union, which organization has never had any affiliation with the Knights of Labor, and not being active in his sympathy for the Ohio miners, who have always been affiliated with the order, in their struggle two months before.

## Farmers Want Free Silver.

## THE NEW TARIFF ACT.

## New York Appraisers Consult the Washington Authorities on Duties.

WASHINGTON, Oct. 5.—Thad Sharrett, a member of the New York board of general customs appraisers, was at the treasury department yesterday in conference with Assistant Secretary Hamlin regarding several important questions connected with the administration of the new tariff act. One question under discussion was whether the entire woolen schedule of the new act, which includes camel hair, etc., goes into effect Jan. 1, 1895, or only those parts which relate to articles of which the component of chief value is wool. The board of appraisers has decided the entire schedule goes into operation Jan. 1, but whether the department will adopt that ruling and so instruct collectors is yet undecided. Another question of great importance discussed was what should constitute the value for duty purposes of beet sugar imported from Germany. The local appraiser at New York decided the value for duty purposes should be the local market value, added to the bonus paid by Germany on beet sugar for export. The question is an important one, as it would materially increase the cost of the beet sugar imported from Germany and would likely reduce the importations.

## INSOLVENT A LONG TIME.

Evidence Against Banker Day in the Plankinton Case at Milwaukee.

MILWAUKEE, Wis., Oct. 5.—The Plankinton bank was insolvent for at least one month previous to the time it closed its doors last year, and Frederick T. Day, president of the defunct concern, paid for much of the stock which he held in the institution in checks on his overdrawn account at the bank. This is what the evidence yesterday in the preliminary hearing of Day tended to prove.

A. E. Fletcher, who is straightening out the affairs of the bank for Assignee Plankinton, said he thought the Day collateral in the hands of the assignee was worth 90 cents on the dollar. District Attorney Hammel said it was worth about 9 cents on the dollar.

## AUSTRIA AGAINST OUR TARIFF.

American Duty On Sugar Hurts Her—Planters are Allowed a Rebate.

WASHINGTON, Oct. 5.—Austria is likely to join Germany at an early date in protesting against that feature of the new tariff law of this country which puts a discriminating duty on sugar from countries paying an export duty or bounty on sugar. Chevalier De Tava, the Austrian minister here, says that as yet he has received no instructions on the subject. He states that he is expecting Austria to make a protest similar to that of Germany, as the two countries act in concert in all questions of foreign policy.

"The sugar industry of Austria is vast," said the minister, and it was one of the principal items affected by the reciprocity treaty between the United States and Austria. As to how the new American tariff law will operate against Austrian sugar is still a question of doubt, as Austria pays no export duty similar to that paid by Germany, but gives a rebate to the Austrian sugar producers on the internal revenue tax levied on sugar. Whether this rebate will be construed to be equivalent to export duty remains to be seen. Its effect is probably the same as it encourages the Austrian sugar producers on such of their products as they ship abroad, and yet it is not technically an export duty against which the new American tariff law makes a discrimination.

## ARE FOR SILVER.

Ohio Democratic Committee Wants the White Metal.

COLUMBUS, Ohio, Oct. 5.—The democratic state executive committee has issued an address to the voters of Ohio to the effect that tariff reform has won, and that the money question is now the supreme issue before the country. The address is understood to have been prepared by A. W. Thurman, president of the committee. It says among other things:

1. That money is the standard by which the exchangeable value of all labor and the products of the same are determined.
2. That no money standard ever has been, nor ever can be, a fixed and unvarying measure.
3. Business men must remember that money may be appreciated in value as well as depreciated.
4. That when it appreciates prices fall. When it depreciates prices rise.
5. The value of money itself is fixed by its exchangeable or purchasing power over other commodities, and this purchasing power of money is determined wholly and solely by the proportion that the quantity of money in circulation bears to other commodities.
6. Now what is the demand for money? It is the demand of all things upon this one thing.
7. Now what is the supply? The supply is the creation solely of the government, as nothing is money until the stamp of the government is placed upon it. Prior to the demonetization of silver in 1873, gold and silver were the standard money. Since then it has been gold. The supply was cut in two. Could any result other than the continuous fall in prices we have experienced for twenty years follow the adoption of this policy? All business men have been looking for the cause of this continual decline.

After reciting many other evils, which are sure to follow, they say: "Nothing but a restitution of silver to its former co-equality with gold as a monetary metal can bring the needed relief; that the persistent fall in general prices would cease; the prices of all products would again be determined in a normal way, and agriculture and other industries would flourish anew."

## Populists Gain in Georgia.

The counties in Tom Watson's district show 500 populist majority. If they repeat this next month he will be elected.

## MANY BLOCKS ADDED TO THE FIRE LIMITS

FRAME BUILDINGS TO BE KEPT  
IN BOUNDS.

New Ordinance Read the First and Second Time Last Evening, the Rules Suspended and Measure Hurried Through—Conrad Building For an Election Booth.

Territory amounting to thirty-five blocks was added to the limits of Janesville's fire proof district at the special council meeting last evening, eleven blocks being on the east side, and twenty-four on the west side. In calling the special meeting to order last evening, Mayor Thoroughgood said:

"We have just had a very serious fire, which would have been much more disastrous had a strong wind been blowing in the direction of our business centre. After consulting with the city attorney and chief of the fire department I have deemed it advisable that the council should pass an ordinance extending the limits as named in an ordinance which will be laid before you. This action has not been taken for the purpose of discommoding any one, nor in the interest of any particular individual, but in the interest of the whole city in preventing the erection of buildings that would be a menace to the thickly populated portion of the city, and to our business interests. Many cities have control everywhere within the limits, and issue permits to would-be builders. I do not think that it is required here, but I do think the extension of the present fire limits is a necessity, and ask you, gentlemen of the council, to take action in this matter at once."

Alderman Rich introduced an ordinance extending the fire limits, it being an amendment to section 1 of the present ordinance. (The ordinance is published in full elsewhere in this paper.) The ordinance was read the first and second times, the rules suspended and the ordinance passed by unanimous vote.

The ordinance provides that the fire limits shall begin at a point at the intersection of Pleasant street and the center of the main line of the Chicago and Northwestern road; thence along the center line of said road, to its intersection with North Main street; thence along North Main street to Fourth avenue; thence on Fourth avenue to North Bluff street; thence on Bluff street to North First street; thence on North First street to Division street; thence on Division street to Court street; thence on Court street to south Main street; thence on South Main street to South Second street; thence on South Second street to a line extending to School street; thence on School street to South Franklin street; thence on South Franklin street to Pleasant street; thence on Pleasant street to the place of beginning.

Pending the third reading, the city attorney explained, in answer to questions, that the extension of the limits as proposed in the ordinance, would work no hardship to any one. It simply gave the council authority to prevent the construction of hazardous buildings within the limit. To erect a wooden building in this limit permission of the council must be obtained.

On motion of Alderman Winslow the council was directed to lease one of W. B. Conrad's buildings on Court street for an election booth.

MCNEY WELL SPENT BY Y. M. C. A.  
Janesville Needs the Work Which the Association Will Do.

Secretary J. C. Kline is seeking \$500 subscriptions among Janesville business men. The reasons, he urges, why the Y. M. C. A. in Janesville should be heartily supported are:

Because it is good for mothers, reducing the worry of "Where is my boy to-night?"

Because it protects the manhood of the land by offering them a place of social and spiritual refuge; standing like a red light warning young men of isolated and organized dangers.

Because its scheme of work is the most practical, economical and substantial that has ever been devised for meeting the actual needs of young men in our modern cities.

Because it is the only channel through which young men whose social, religious and educational advantages have been limited, are likely to be brought to a higher, social, intellectual and religious level.

Because it is solving more than any other institution the vexing question of capital and labor. Business firms and corporations, by contributing to its support, place within the reach of their employes, many privileges at a very nominal fee, thus showing the practical interest in the workmen, which is fully appreciated by these classes.

Because it provides scientific, physical training, under medical supervision to the great number of young men who feel that they must be strong both in body and in mind, in order to be successful in life. Only three young men in twenty-three can pass the West Point physical examination.

Because it has demonstrated its usefulness in keeping young men from going wrong, which is vastly better than trying to save them, after they have gone wrong. However it does both.

Because it is marvelously adapted to the changed conditions of business life and the environments of young men.

Because it teaches men to be social

not convivial; athletic, not sporting; intellectual, not bookish; spiritual, not canting.

Because it successfully aims to take young men, just where they are, and help them to where they ought to be.

Because it is the only organization doing an all-around work, physical, social, intellectual and spiritual.

Because it is one of the greatest civilizing agencies in existence.

Because it redeems the powers of the body wasted by indiscretion.

Because it stimulates a man to measure his capabilities.

Because it is the only home thousands of otherwise homeless young men have.

Because it excites a spirit of Americanism for our favored commonwealth.

Because it is non-political and non-sectarian.

Because it is not an experiment but a genuine nineteenth century success. This institution is needed in Janesville to save her young men and establish a work of character to be proud of in the years to come.

PUTNAM GETS \$1,275 INSURANCE.

La Prairie Company Fixes His Loss—McCarthy's Move To Darien.

FAIRFIELD, Oct. 5.—Jesse Putnam suffered quite a loss last Saturday night when his barn was burned. The fire was under such headway before the family was awakened that very little was saved. The loss included the barn and two other buildings, six horses, seven sets of harness, a thousand bushels of barley, all the hay and straw and most of the machinery and farming tools. No direct cause can be assigned for the fire. Mr. Putnam was insured in the La Prairie Fire Insurance Co. The board met last Tuesday and allowed him \$1,275 for his loss. Charles Wilkins and family moved into one of Mr. Conry's houses and Mr. Henschel and family of Darien, have taken possession of Mr. Cutler's house. FOOTVILLE, Oct. 5.—Death has entered the home of Mr. and Mrs. Frank Pepper and taken away their infant son which came to gladden their home on Friday last. It was their only child. They have the deepest sympathy of their many relatives and friends. Funeral services were held at the family residence on Thursday at 2 o'clock, conducted by P. W. Peterson, after which the remains were laid at rest at the Grove cemetery. The party at the residence of Mr. and Mrs. A. P. Wells on Tuesday evening given in honor of their parents, Rev. Milton Wells and wife of Green, Iowa, but formerly of this place, was one of the most notable events of the season. About eight o'clock people from all parts of town began to arrive which soon explained the whole affair. It was a party of about sixty who had come to show their respect to their old pastor and his wife, who have labored with us for so many years. The evening was spent in a very social manner, after which a sumptuous repast was served, the party breaking up at a late hour each expressing themselves as having spent an evening not soon to be forgotten. ## HAND NAILED FAST TO A HEAVY PLANK

HENRY ENGLEKE THREATENED  
WITH LOCK JAW.

Fell Headlong Down a Flight of Stairs and Drove a Heavy Rusty Nail Through His Palm—Today He Suffers Great Pain and Fears Serious Results.

Lockjaw is the prospect ahead of Henry Engelke, an employe in N. B. Robinson & Co's. brewery. He was doing his morning chores and was descending the stairs to the basement, when he fell, striking at the bottom full length, face down and his arms spread out. Dazed by the fall he made a feeble attempt to regain his feet but his right arm appeared useless. He felt a sting on the hand, and partly sitting up he put his left hand to his right, and felt some hard substance about an inch long sticking out of the back of his hand. He undertook to raise the hand but found it nailed fast to a board. Gaining his feet he pulled the board away, and then hurried to Dr. Menzies' office to have the wound cared for. Last evening the wound was giving him much pain, the entire arm being affected. The chief fear is of lockjaw. The nail went through the centre of the hand and held the board to the hand solidly.

## MILLINERY NOTES.

**A Cruel Thing, and Yet the Fair and Tender Sex Demand It.**

Notwithstanding the protests of the merciful and the active opposition of influential women, who disclaim a fashion which seems to justify so much cruelty, the slaughter of the innocents still goes on. An enormous traffic is carried on in birdskins and colored feathers, of which London and Paris are the two great marts of supply. One famous dealer in London has been known to receive in one single consignment 32,000 dead humming birds.

VELVET TOQUE.

80,000 skins of different aquatic birds and 800,000 pairs of wings of different small and brilliantly colored birds, while a similar Parisian dealer advertises for a contract to supply 40,000 for one special season.

The early importations of fall millinery are now on exhibition and are, most of them, exceedingly pretty. A great deal of velvet is used on them and much lace, both light and heavy, in white, tinted and black. Moire is beginning to fall into the background, satin taking its place. There was a time when flowers, even of silk and velvet, were considered out of place on a winter hat, but fashion finally abolished that notion, and flowers may now be worn at all seasons, as is freshly evidenced by these new articles of headwear.

The new felts are as brilliant and diverse in tints as are the gowns with which they may be worn. Besides various shades of rose, red, green, brown and purple there are shown blue and petunia shades of the brightest quality. In some of the shapes these colors are combined with black in a way that tones them down somewhat, a hat with a blue crown having a black brim with a blue border, or vice versa. These two toned shapes will be apt to be more effective when properly trimmed than those of solid color.

The illustration shows a toque of ruby velvet. It has a narrow, upright brim covered with guipure. A choux of pearl velvet, with lace, trims the front, while at the back are several velvet choux, from the midst of which spring two black ostrich feathers. JUDIC CHOLLET.

## ON THE BOULEVARD.

**Pretty Things That May Be Seen In a Stroll In Paris.**

The Parisian is a viveur, but there is one thing he is not, and that is a shopkeeper, says a recent writer on Parisian life, who evidently does not hold to generally accepted ideas. A stroll along the boulevard soon demonstrates that the art of window dressing still leaves room for improvement. The Parisienne never goes out shopping to satisfy her curiosity, or to "have a look around," or to kill time, or "price" goods. Before setting out to make a purchase she has exactly determined on what she requires. She does not trouble the young man behind the counter with a vague description of pattern or material,

MYRTLE GREEN GOWN.

In the search for which he turns over bales upon bales of goods on the counter, to be finally told that the fair purchaser cannot at all see what she wants. The French callot would not stand that, so madame enters, shows a small pattern or asks for exactly what she wants, gets it and returns home, with the result that persuasive powers on the part of the shopman, cheapness of price as an inducement to purchase and so forth are not needed, and, although keenly alive to the advantages of seizing upon a bonne occasion, or "bargain," she does not give trouble for nothing in a shop.

Perhaps it is because the Parisienne has the dry goods instinct developed to such perfection that she is so ideal a customer. However simple her mode of selections may be, she has a keen eye to the true money value of what she buys, and it would be difficult to overreach her. But the chief charm of her gowns is their Parisian quality and not their cost. Only Paris could produce such a costume as that shown in the sketch, for instance. It is of myrtle green glaze silk, the plain skirt being covered half way up with an application of heavy cream lace. The round waist is shirred lengthwise and has a yoke of the same lace bordered with a frill of cream mousseline de soie. The balloon elbow sleeves are finished with a similar frill. The choux and the puffing that borders the lace on the skirt are of silk, like the gown. JUDIC CHOLLET.

## Tea For Neuralgia.

"Nothing," says a physician who has been experimenting in diets in his hospital, "brings peace to the sufferer from neuralgia equal to that which comes from strong coffee, with a little lemon juice added." The same authority pronounced tea almost a specific for neuralgia in its simple, uncomplicated form.

ONE OF CHINA'S CITIES.

Canton, Where the Plague Comes From,

and It Isn't Surprising.

A line or two from Mrs. Archibald

Dunn's new book gives a striking pic-

ture of the horrors of life in Canton.

"The circumference of the city walls

measures from six to seven miles, and

within their enclosure there exist

\$1,000,000 Chinese people. I had been

in many oriental cities and smelt

many oriental smells, but those of

Canton," says Mrs. Dunn, "were

giants of them all. The passage-like

streets are open sewers, every de-

scription of refuse being cast into

them and forming continuous heaps

on either side of the way. The water

supply is raised from wells in the

streets, the mouths of which are on a

level with the ground, and a shower

of rain, or drippings from the buckets

in which they lift it must carry back

the surrounding filth in a way horri-

ble to think of. Through miles and

miles of these high, narrow alleys did

we travel, through the most fetid, air-

## WOMAN'S HEROISM.

FEW PEOPLE REALIZE IT.

What Heroic Efforts They make to

Appear Cheerful and Happy.

[SPECIAL TO OUR LADY READERS.]

How many, think you, have any idea of

the suffering endured by so large a propor-

tion of the women of America?

Very few men have the slightest con-

ception of the pain endured by so many

women, even those of

their own households, or the heroic

efforts they make to

appear cheerful and

happy.

Women ought to be

told just where the

danger lies, for their

whole future may

depend upon their

knowledge, and how

to overcome it.

Lydia E. Pinkham

solved the mystery

after years of experi-

ence and study. She

unerringly traced the

cause of nearly all of

woman's suffering to

the womb.

Other years fol-

lowed and her Vege-

table Compound was

given to the world.

And now, after

years of marvellous

success, it is acknowledged the unfailing

remedy for all forms of female complaints,

ovarian troubles, inflammation and ulcer-

ation, falling and displacements of the

womb, irregularity, suppressed or pain-

ful menstruations, leucorrhoea, bloating,

flooding, backache, nervous prostration,

kidney trouble, etc., and is found on the

shelves of all respectable druggists.

Such cases as this of Mrs. M. F. Fozzy,

of Campello, Mass., speak volumes. She

says: "I was very

sick. I did not ever

expect to get up

again. Menstruations

had stopped sud-

denly. The pains all

through my body

were terrible. As a

last resort I sent for

a bottle of Lydia E.

Pinkham's Vegetable

Compound and a box

of her Liver Pills. I

also used a package of her Sanative Wash.

Relief came at once, and to-day I am

a well woman. Menstruations regular,

no backache, entirely cured of leucorrhoea

and bearing down pains. Nothing equals

Lydia E. Pinkham's Vegetable Compound.

Realizing that Mrs. Sullivan would be compelled to pay her husband's fine from her own hard earnings if the case went to trial, Mrs. Williams consented to dropping the complaint.

## WIDOW PAID \$1,000 FOR BOGUS LOVE

W. H. CARPENTER UNDER ARREST FOR SWINDLING HER.

A Handsome Giant Was He and On His Promise to Marry They Say He Negotiated a Loan and Flew—Long Chase By a Private Detective.

A handsome six-footer is W. H. Carpenter, and thereby hangs a tale. It's the same old story; fine looking man, rich woman, shattered hopes, flattened pocket book; police; jail.

Carpenter was arrested at Jefferson last night upon the advice of City Marshal Appleby, of Beloit, and Charles Wallace, a private detective, of Chicago. The arrest was the sequel to a horse race from Beloit to Janesville, in which Carpenter and a liveryman and the officer and another liveryman competed. Carpenter was best, but the police got the best of it at last.

Carpenter, who is a fine looking man is six feet tall, thirty-eight or forty years old and will weigh two hundred and fifty pounds, is charged with making love to a rich Chicago widow and thereby negotiating a loan of some \$1,000 with which he disappeared. It is said that the woman in the case did not want his part of the transaction to be known and therefore the charge against Carpenter was made as embezzlement. Just which were the facts the officers are not inclined to tell.

Detectives Were Set at Work.

Anyways the complaining witness turned the case over to a private detective agency in Chicago and Charles Wallace, one of their men, was put to work.

Wallace located Carpenter at Fond du Lac and hid himself to that city. Getting acquainted with Carpenter he hired him to help him sell creamery supplies which the detective represented was his business.

Then came two weeks of skillful cajolery by the detective who gradually worked along toward the Illinois line. Yesterday he reached Beloit and yesterday going to Stone's livery hired a rig to take himself and his assistant to a creamery just across the line.

No sooner had the buggy rolled into Illinois before Wallace produced a pair of handcuffs.

"Carpenter, I have a warrant for you," he remarked as he laid his hand on the big man's shoulder.

Threw the Detective Down.

"The devil you have" remarked Carpenter sarcastically, as he grabbed the detective and tossed him clear across the road as easily as if he had been a babe.

While the officer was picking himself up, Carpenter strode back into Wisconsin and reaching the Goodwin house, hired a liveryman to bring him to Janesville.

The detective had in the meantime consulted Marshal Appleby, and a warrant was received from a Beloit justice.

The detective and the marshal then came to Janesville where Officer Hogan was consulted. They decided that the man they wanted had gone on to Milton Junction, so the police drove up in time to find that Carpenter had gone on a freight train that was still in sight.

A telegram was sent to the sheriff at Jefferson, who nabbed Carpenter as he got off the train. Marshal Appleby came to Janesville this morning and left for Jefferson on a freight train at 10:30.

and will return with his prisoner some time this evening. Carpenter was a Chicago, Burlington & Quincy claim agent for some years, but lost his position. He was in Janesville Wednesday night, stopping at the Grand.

ABNER MITCHELL'S EMPTY POCKETS SEARCHED.

Spring Valley Man Stopped On His Way From the Cheese Factory at 8 O'clock in the Evening—He Had No Money, So Was Allowed to Go.

Abner Mitchell, who lives on the Jno. Kirkpatrick place in Spring Valley, was "held up" by three men as he was on his way home from the cheese factory. It was between 7 and 8 o'clock when he reached the point where three roads meet, near the corner of Carl Neavill's field, and was stopped by the men who enquired the way to Broadhead, then to Footville.

He halted to direct them, and one of them rode up to his wagon and ordered him out. They went through his pockets, but found nothing, as he had changed his clothes for his milk-irg suit before leaving home. It was very dark and he had no idea who they were, though they knew him and spoke his name. After they were through with him, they rode off to the north.

Mr. Mitchell is beginning to put a good deal of faith in his luck. Just a week ago, as he was going through his gate, in starting for the factory, lightning struck the tree on which the gate was hung, completely splintering it. Mr. Mitchell and the horses were knocked down, but soon recovered and went on their way.

## THE FINE STANDS.

**Court of Appeals Sustains the Finding of Judge Ricks.**

CINCINNATI, Oct. 3.—A decision was rendered last evening by the United States Circuit court of appeals whereby the decision of Judge Ricks in the case of the Toledo, Ann Arbor and Northern Michigan railroad company against Engineer Lennon, of the Lake Shore & Michigan Central railroad, was affirmed. The former road had secured an injunction restraining various railroads and their employees from refusing to handle their cars. Engineer Lennon was given orders to haul a train of cars from Alexis Junction to Toledo. He refused to do so until ordered by Chief Arthur, of the Brotherhood of Locomotive Engineers.

The Toledo-Ann Arbor officials then caused his arrest and he was fined \$50 by Judge Ricks of the United States district court. He refused to pay the fine and was taken out of jail on a writ of habeas corpus and an appeal made in the United States Supreme court. That body declared it had no jurisdiction and the case passed to the United States court of appeals. Its decision is final.

## FATAL FIRE IN A TENEMENT.

**Woman and Child Rescued by Two Brave Men from the Roof.**

NEW YORK, Oct. 3.—Fire yesterday in the five-story tenement house at 215 Madison street, inhabited by twenty families, caused one death and at least one other person may die. Mrs. Ginsberg, who was ill in a third-story tenement, with a child, was left by her friends to shift for herself. Two young men contrived to lower a rope to her window, and with that tied about her waist and clasping her child in her arms she was drawn to the roof and thence conveyed to a place of safety. She may not recover from the effects of the shock. After the fire had been extinguished the body of Ida Krieger, 3 years old, was found in a passageway, where she had been overcome by smoke.

## Five Alleged Murderers on Trial.

PEKIN, Ill., Oct. 3.—John L. Gehr, John Heatheot, Daniel Coddell, Charles Jones and George Potts, indicted for the murder of William Dixon at the coal miners' riot at Little Bros. coal mine, four miles north of Pekin, June 6 last, appeared for trial in the Circuit court yesterday. A motion for a change of venue was overruled by Judge Green last week. The day was spent endeavoring to obtain a jury, but not a juror was accepted up to the adjournment of the court.

## Information Wanted.

The policeman was standing on the street corner about midnight thinking of mother, home and friends, when a belated pedestrian touched him on the shoulder.

"I say, officer," he said, huskily, "how far is it to the nearest police station?"

"About five blocks," responded the officer, eyeing him sharply.

"Blocks of what?"

"Blocks of town, of course. What did you think it was?"

"Warm night like this, didn't know but what it might be blocks of ice. Which way is it?"

"Two blocks down this street and three blocks to your left."

Without as much as thanking the officer, the pedestrian started off in exactly the opposite direction.

"Here," called the officer, "that isn't the way."

"Course it ain't," answered the man without stopping. "You didn't suppose I wanted to go to the station house, did you?"—Detroit Free Press.

## WAR'S MODERN HORRORS.

**Science Is Making Its Effects Too Dreadful to Be Engaged In.**

Various experiments with the new rifles, which have recently taken place in Germany, have demonstrated in a very conclusive manner that another war would practically be one of annihilation. A well-known French writer, in an article which he devotes to the subject, says that the battlefield would at the end of an engagement be covered with two or three hundred thousand corpses all crushed and broken, and would be nothing but a vast charnel house. No one would be left to bury the dead, and pestilence would in its turn sweep away the country people. Pointing the moral, he adds that the man—emperor, king or president of a republic—who, under these conditions, would expose the human race to such a fate would be the greatest criminal that the world had ever seen. It is tolerably plain that the horrors and the butchery which a war would entail are becoming more and more recognized, and that the terrible vista thus opened out is exercising a sobering effect on those who were formerly wont to discuss various eventualities with a light heart.

## Tons of Silver in an Altar.

A dispatch from Mexico announces that the erection of the magnificent canopy over the high altar of Our lady in the shrine of Guadalupe has been completed. The pillars to support it are each of a solid block of polished Scotch granite weighing seven tons. The diameter of each pillar is three feet and the height twenty feet. The additions to the church edifice will not be completed for nearly two years at the present rate of progress. When finished the shrine of the lady of Guadalupe will be one of the notable Catholic church edifices of the world. The solid silver altar railing weighs twenty-six tons, and many millions of dollars are in other ways represented in the palatial place of worship.

## PAIN'S cracks.—It

often costs more to prepare a house for repainting that has been painted in the first place with cheap ready-mixed paints, than it would to have painted it twice with strictly pure white lead, ground in pure linseed oil.

## Strictly Pure White Lead

forms a permanent base for repainting and never has to be burned or scraped off on account of scaling or cracking. It is always smooth and clean. To be sure of getting strictly pure white lead, purchase any of the following brands:

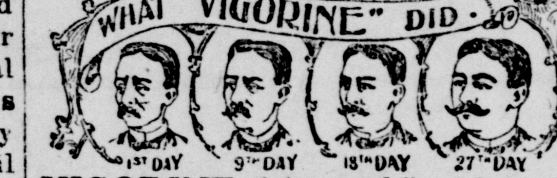

"Southern," "Red Seal," "Collier," "Shipman."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors, a one-pound can to a 25-pound keg of Lead and mix your own paints. Saves time and annoyance in matching shades, and insures the best paint that is possible to put on wood.

Send us a postal card and get our book on paints and color-card, free; it will probably save you a good many dollars.
